

GLORY OF MATHEMATICS

BY
Class 12

“Mathematics is the most beautiful and most powerful creation of the human spirit.” – Stefan Banach

Mathematics is not only for solving numbers. It's also for dividing sorrow, subtracting sadness, adding happiness, and multiplying love and forgiveness.

Students of grade XII presented a special assembly on the topic “Glory of Mathematics” on 9th May 2023.

This assembly was an effort to create interest and highlight the importance of Mathematics in all aspects of life.

"गणितं शक्तिधरमिह प्रविश्य
शास्त्रनिपुणम्।
तत्स्वशक्त्या विकस्वानमास्ते
महत्त्वमात्मनः॥"

Mathematics may not teach
us to add love or subtract
hate, but it gives us hope
that every problem has a
solution.
